PAPUA- Amidst the misty peaks and the crisp mountain air of **Kago Village, Gome District, Puncak Regency**, a different kind of warmth spreads—not from the sun, but from the heartfelt presence of **Task Force Yonif 700 Koopsau Habema**. Through their **Anjangsana** program at the **Kodim Persiapan Post**, these dedicated soldiers once again bridge the gap between duty and

compassion.

Honai, the traditional round hut that has long stood as a witness to the daily struggles of its people, became more than just a shelter that day—it became **a meeting place of hearts and hopes**. The soldiers arrived **not with weapons, but with kindness**, offering **free health check-ups, distributing warm clothes, and sharing smiles that eased the burdens of life**.

For **Martha**, a local resident, the presence of these soldiers was nothing short of a miracle. *"The TNI gentlemen are like guardian angels,"* she said, eyes glistening with emotion. *"They are always here, providing solutions to the challenges we face."*

Meanwhile, **Pangkoops Habema, Maj. Gen. TNI Lucky Avianto**, highlighted the deeper purpose of their mission.

"Behind every camouflage uniform, there is a heart that beats with care. These soldiers are not just guardians of security—they are friends, brothers, and a source of strength for the community. In every smile they share, hope is reborn."

This visit was more than just a social activity—it was **a story of humanity, a reminder that even in the harshest landscapes, warmth and kindness can flourish**. Every handshake, every word of comfort, and every small act of service whispered the same silent prayer: **May peace and prosperity always shine upon the land of Papua**.
